EXHIBITIONS

EGYPTIAN PHAROHS FROM CHEOPS TO RAMSES II

9 FEBRUARY 2024 - 5 JANUARY 2025

Long programme

The exhibition itinerary is an invitation to travel back in time, immersing visitors into the heart of a millenary civilization, settled along the Nile, gift of the gods.

From divine genesis, the exhibition invites visitors to discover the daily lives of these pyramid builders and craftsmen, who dedicated their art to the glory of the pharaohs, and their lives to the deities in the hope of gaining access to the beyond. Paintings, reliefs, sculptures, jewels and extraordinary architecture tell the story of life on earth in the time of the Pharaohs, making visitors feel infinitely small compared to the wealth of ancient Egypt.

THE ORIENTALISTS INGRES, DELACROIX, GÉRÔME...

17 FEBRUARY 2023 - 5 JANUARY 2024

Short programme

In the 19th century, the gates of the Orient opened to Western painters who discovered these millenary lands. Dazzled by the Southern light, from desert landscapes to colorful architectural patterns, these artists found in the wonders of the Orient an endless source of inspiration.

Delacroix, Gérôme, Ingres and other major names in European expression invite visitors to discover their vision of this exotic and bewitching new world.
